Routing & Billing Instructions for shipments

For all shipments over 150 lbs., visit <https://pickups.eshipping.biz/> to submit the details of your shipment. Eshipping will send completed bill of lading and dispatch the carrier for pickup. Please note: You are required to use the Bill of Lading that eShipping provides as the primary BOL. Failure to do so may result in a freight charge back.

For help on expedited shipments or problems submitting your request, please contact the eShipping Client Services Team at pickups@eshipping.biz or (866) 890-3408, option 2.

For shipments under 150 lbs., where XMEK is responsible for freight charges, please continue to ship using the XMEK parcel account. For shipments under 150. Lbs., where freight is prepaid, use the carrier of your choice, so long as tracking is available upon request.
